

WWL 2019 Rule Sheet

- This year the maximum handicap is going to be 18.
- Each match will be played off the low-ball handicap. I will go over this on Wednesday with anyone who is unsure about this.
- If a team doesn't show up or cancels, that team will get **zero** points. If their scheduled opponents do show up, they will automatically get a minimum of **10** points. That team will then play against par, with their full team handicap. If they score more than **10** points against par, they will obviously be allowed to keep those points.
- In the event that someone's partner doesn't show up (**this does not apply if you have a sub**), the teammate that plays will be the only score that counts against her respective opponents. The three ladies that are playing in the match will still play off the low ball.
- If you can't make it to league, we encourage you to try to find a sub. However, subs are not eligible to win any par 3 contests that we have throughout the year. In the playoffs, one player has to be an original member of the team, a team can't consist of two subs in the playoffs.
